We filed an amended 48 hr. report today, 3/4/16, with the filing ID of FEC-1053248. I attempted several times to file it last night using FEC File software. I was getting an error report when there was no apparent error, so I was unable to file. I spoke with FEC File tech support today and was informed that this is a problem on their end that they are working on fixing. Tech support walked me through the fix to get the report filed today. Also, two of our original reports were not uploaded to the website although we received filing confirmations that they were filed on 2/27/16. Again, I was informed this was a problem on their end and the two reports would be available on the website tomorrow.
